

## **Sustainability Policy**

As Wish More Hotel Şişli, we aim to sustain the relationship between people and the world, which has been ongoing since the beginning of life. We set goals and develop them so that future generations can drink clean water, eat fresh fruit and swim in our clear shores. In this context, Wish More aims to prove to all its employees, stakeholders and guests that a sustainable life is possible by identifying four main issues for its future goals.

1- EMPLOYEE HAPPINESS

2- TAKING CUSTOMER DEMANDS INTO CONSIDERATION IN ALL ACTIONS

3- INNOVATION WITH SUPPLIERS AND BUSINESS PARTNERS

4- PROTECTION OF LOCAL COMMUNITIES AND CULTURAL HERITAGE

In addition to these topics, we create a sustainable waste management system with waste minimisation studies and achieve savings targets of up to 15% in energy and water consumption. We follow a policy that supports local production and recycling by carrying out wasteful activities in all our catering halls and restaurants.

We implement the sustainability system to cover environmental, social, cultural, economic, quality, human rights, health and safety issues.
